A fresh graduated Software Engineer with 2+ years experience in frontend development with a passion for building and maintaining responsive, accessible, and performant websites. I have worked with a variety of technologies including HTML, CSS, JavaScript, jQuery, Vue, Vuex, and MySQL.

WORK EXPERIENCE

Frontend Developer
Nestech ☐

09/2021 - Present   *Syria*

- Converted designs into high-class front-end web applications.
- Collaborated with product team members to implement new feature developments.
- Finished 5+ web applications with a responsive mobile-first approach from concept to deployment.

Frontend Developer
BadinanSoft ☐

04/2021 - 09/2021   *Iraq (Remote)*

- Established testing and modular coding development environment for company projects.
- Enhanced legacy projects UX by implementing the right technologies and fixing UI bugs.
- Increased websites speed by lazy loading images, i18n, state, and router modules.

Frontend Developer
Unifi Solutions ☐

11/2020 - 04/2021   *Montreal, QC (Remote)*

- Led the development process of the "BACT" system.
- Automated the injecting of state and routing modules using JS scripts.
- Maintained scalable system-wide components that were used in the IoT web application.

Frontend Developer
Zeuor ☐

09/2019 - 11/2020   *Syria*

- Built web applications for Queue Management System.
- Reduced load time by over 60% by dropping jQuery UI and re-writing all CSS from scratch.
- Implemented visual designs that are user-friendly.

## EDUCATION

Master of Web Science
Syrian Virtual University

01/2022 - Present

Bachelor of Software Engineering
Tishreen University

09/2016 - 09/2021   *(GPA: 3.4 / 4.0)*

SKILLS

HTML   CSS   Javascript   Vue.js   jQuery

Bootstrap   Git   Vuex   Sass   Quasar

Responsive Design   Communication Skills

PROJECTS

Tasqment (09/2020 - 09/2021) ☐
- Transformed the design of the application into a well-structured web application.
- Implemented SSO, 2fa, and chat system in the project.
- Deployed the app on digitalocean droplet and set the server up dealing with all related server issues.

Project Name

DisruptX IoT (01/2021 - 04/2021) ☐
- Developed responsive email templates across various email clients using table layout and inline styles.
- Participated in the system structure decisions and contributed to the modular structure used in the application.
- Worked closely with designers and product owners to translate clients requirements into scalable web applications

BACT learning system (11/2020 - 01/2021) ☐
- Designed, analyzed, and broke down the requirements into categorized tasks with priorities.
- Handled all requirements changes working in an agile methodology.
- Translated designs into reusable UI components.
